## Lacombe Creamery

There is just one reason why Canadian butter cannot dominate the World's Markets. That reason is "Quality" the control of which is in the hands of the producer and the Buttermaker. If the cream producers will patronize their local Creameries, where immediate manufacture takes place, quality, lower cost of production and consequently Higher Prices to the Cream Producers is the result.

Always at Your Service, Highest Prices.

Efficient service, and prompt payments the end of every week or cash.

## The New Edison

THE PHONOGRAPH WITH A SOUL

This wonderful new instrument brings the best music right into the home, as created by the world's greatest artists.

No matter where you live, you and your children can have the same musical advantages that you would possess if you could take them to New York for the opera season.

The New Edison does not merely "imitate." It "re-creates." No human ear can distinguish artist from instrument. The famous Edison tone tests have proved this, not once, but more than 1500 times.

Call at our store for a demonstration and bring the children, they'll enjoy it.

## Attempt To Suppress Sinn Fein In Ireland

Dublin.—The Sinn Fein parliament has been suppressed and an extensive police and military movement against the Sinn Fein has been started. The scope and object of the operations were not revealed, but raids by government forces are reported throughout the country.

There were many arrests and seizures of arms and literature.

The search of the Sinn Fein headquarters here lasted two hours. It included even a personal search of visitors to the premises. The documents sought related to the loan of the Irish republic and to the correspondence on which the report of the American delegates who visited Ireland was based.

An exhaustive search was also made of the private house of Count Plunkett and that of the Sinn Fein member of parliament, Michael St. John.

This is the twelfth raid that has been made upon the Sinn Fein headquarters here, and no prosecutions have followed.

The government's recent proclamations concerning the Sinn Fein parliaments are believed to have had their motive largely by reason of the fact that there have been numerous persons killed and attacks made on policemen and others throughout Ireland.

Two new Sinn Fein members of the House of Commons were arrested. They are Ernest Byrne, member for Monaghan North, and Patrick O'Keefe, member for the north division of Cork county. Military forces have been sent to the barracks at Dublin, are arriving in the city.

At Skibbereen, in the southwest part of County Cork, armed police raided a newspaper office and also a number of private residences.

## Against Leaving Russia To Fate

Col. John Ward Warns Britain of Real Meaning of Evacuation of Territory

London.—Col. John Ward, labor member of the House of Commons, who has just returned from Russia, in an interview said that to desert the Russians who had rallied to our standard will make our name stink in the nostrils of every non-Bolshevik in Russia.

"We went to Russia to prevent the Germans from transferring men to the western front," he declared. "Are we now to say to those who rallied round us, 'You have served our turn, we are going. We wish you luck?'"

"That," said Col. Ward, is unthinkable. It would be black treachery to leave them to face the enemy, they have made for our sakes without anything more substantial than our goodwill.

## British Monitor Was Not Raided.

London.—It is declared in official quarters that there is no truth in the report that a party of Sinn Fein on a recent night had boarded a British monitor off Cork, overpowered the skeleton crew and raided the vessel. The report printed in the Daily News, said that the raiders had secured with a quantity of rifle munitions and various instruments.

When it comes to speaking ill of their neighbors most people are there with the goods.

## Undue Profits Will Spell Ruin

Toronto.—Speaking at the price enquiry, Mr. O'Connor stated that the object of his visit was to ascertain if a fair profit could be set for other commodities in addition to sugar, the exceeding of which would mean "criminality or jail."

They wanted to bring down the price in such cases and then drive in rivers to keep them at that place. He prophesied that if this was not done, disaster would result, as there was a lack of prices in sight, which would mean ruin to the country. The object of the board was not only to bring down prices, but to hold them down.

A. C. Fyke, speaking for the wholesale grocers, said that his guild was quite willing to have inspection of its business. The members would co-operate with the board, he said. The same was said by Robert Down, the grocers' section of the Retail Merchants' Association.

"We are going to put the rivers in and say the price cannot go any higher, but we may have to maintain the prices of some goods," said Mr. O'Connor. "There is going to be a hard time coming soon when nothing is going to break. It is to some women paying 25 cents a dozen for eggs if her husband is going to be put out of business as the result. But unless prices are brought down quickly there will be a big break."

## Profiteers Could Pay

Mayor of Toronto Out for \$200,000 War Gratuity Without Any Enquiry

Toronto.—At a mass meeting of the Returned Soldiers' Gratuity League, Mayor T. L. Church made a characteristic speech. He was for the gratuity without any preliminary commission.

It would not cost the country \$800,000,000, he believed it could be done for \$600,000,000, and there were plenty of ways to meet the cost. There was Canada's share of the war indemnity; there was a domestic loan; money should share and finally make these hundreds of profiteers in the war, loan kings and carriage kings, and the rest of them, digger a couple of hundred millions.

"Mr. O'Connor was here, and I showed him some of the war profiteers of Toronto. Some of them have an income of two and a half millions and under the law we can only charge them \$35,000 income tax. Let the government bear themselves. They are doing it in England, filling the jails with profiteers in the United States, and these people are responsible for the high cost of living."

## Wheat Board Rules

New Order Forbids Railway Companies to Transfer Wheat Without a Permit

Winnipeg.—The Canadian Wheat Board has issued an order (No. 42) which stipulates that no wheat shall be transferred by any railway company in the following areas: Alberta and Saskatchewan, without a permit from the Canadian Wheat Board in Alberta. The area bounded on the north by the C.P.R., Lacombe to Compoer; on the west the boundary line of the province; on the south the international boundary; and east by the Saskatchewan river. In Saskatchewan: C.P.R. subdivision, Cutknife, Wilkie, Hardisty, Macklin, Balford, Helieth, Kerrobert, Coronation, Swift Current, Empress, Maple Creek, Maynard, Shaunavon and Glenora.

C.N.R. subdivision, Kindersley, Hanna, Elrose and Delisle. G.T.P. line, Transcona, Arthurs, Biggar, Calgary branch, Cutknife branch and Alton, Battleford branch.

To Control Cold Storage. Washington.—The first of the high cost of living laws proposed by President Wilson took form when the house agriculture commission ordered favorably reported a bill to control cold storage. All containers of food when placed in storage would be stamped "cold storage food" and the dates upon which they entered and left storage would be stamped.

## U.S. Warship to Honduras

Washington.—The principal ports on the north coast, La Ceiba, Tela and Omoa, and probably Puerto Cortez, have fallen into the hands of the rebels. Resistance having been formal, Americans at La Ceiba have appealed for protection, and the U.S.S. Cleveland has been ordered to that port.

London.—It is reported that four and a half million pounds in gold has reached London from Germany, and a portion is said to be already on the way to Canada in payment for foodstuffs.

## Aliens In Canada

W. D. Euler Will Enquire How Many Are Still Interned

Ottawa.—The question of interned aliens is to be brought to the notice of the House of Commons by Mr. Euler, North Waterloo, who has given notice that he will enquire how many alien enemies are still interned in Canada, how many were interned after the signing of the armistice, and how many their release or repatriation is expected.

Mr. Euler will also ask if a British subject being a naturalized citizen of New Zealand, of German origin, may be interned in Canada, or he may be deported to Germany.

## \$400,000 Wage Increase

Winnipeg.—Although no official statement will be made until the end of the week, it was learned from an authoritative source that wage increases to the extent of \$400,000 must be made by the Winnipeg Electric Railway, according to a decision reached by the Manitoa board, which recently set out to investigate the men's grievances. The increases may be made retroactive, it is stated. This increase will affect carmen, conductors, motormen, trackmen, repairmen and inspectors.

## Serious Outbreak Of Rioting In Boston

Two Men and Boy Killed In Turbulent Outbreaks In Massachusetts

Boston, Mass.—Two men and a boy were killed in turbulent outbreaks growing out of the police strike. There were numerous injuries to a minor nature to members of mobs, police officers and state guardsmen. The most serious disturbances were in the vicinity of South Square and South Boston. Cavalry charged the crowds and a machine gun was used, one man being killed and several wounded by its fire. Property damage was slight compared to that inflicted by the wild ramming of horse lines.

One of the most serious elements in the complicated outlook was the possibility of sympathetic strikes by labor unions, which have declared their support of the policemen's union. While the patrolmen's organization, most of these unions are affiliated with the American Federation of Labor. The crowd early became riotous and cavalrymen were sent to disperse it. The mob surged in and out of the square. Shots were fired and an unidentified man was killed. A woman was wounded in the arm, a middle-aged volunteer policeman was so badly beaten that he was removed to a hospital, and three cavalrymen were injured by the heads of other missiles, and also were given hospital treatment. After military reinforcements arrived the square was finally cleared.

The South Boston district was so turbulent that it was considered one of the worst danger spots, and a large force of troops was thrown in there. For some time they had in check the mobs of the Peninsula section, but late at night conditions were so menacing that a machine gun crew was fired on to disperse them.

So fierce was the resistance of the angry crowd to the efforts of the guardsmen to preserve some sort of order that guns were levelled and the machine gun was put in position. All sorts of missiles were hurled at the guardsmen. A shower of stones so endangered the soldiers that machine gun crews were ordered to fire. One man was killed and several wounded.

## Hurricane Hits Florida

It Is Believed That The Damage Will Exceed \$2,000,000

Key West, Fla.—Lower Florida was paralyzed as a result of a violent hurricane that passed over the section. Three hundred and twenty frame buildings practically were razed, many church edifices wrecked and five retail stores tipped over. The damage is estimated at more than \$2,000,000.

Shipping off the coast met with disaster. Several small vessels were sunk and others were driven on to the reefs. A strong wind and rough sea prevented rescue work.

In the little town of Dade, near Miami, eight buildings were totally destroyed and 13 partially demolished.

Although the property damage was enormous, no fatalities have been reported.

The steamer Grampus, with a crew of 125 men, was sunk in Key West harbor, and the two-masted schooner U. V. Drew, bound from Tampico for Cuba, with a crew of seven men, was reported sunk off Key West harbor, where she had put in to escape the storm. Whether or not the crews escaped is not known. The navy radio station was put out of commission. Fruit and vegetable growers suffered the heaviest losses, the damage around Miami being estimated at half a million dollars.

## Gave His Blood to Save Life

Kingston, Ont.—A case of unusual self-sacrifice is revealed in an operation performed in the Queen Military Hospital. Sergeant Thompson, a patient at the hospital, is a victim of pernicious anemia, and the hospital doctors decided that a transfusion of blood was necessary. Volunteers were asked for, and the first to offer was Harry Parker, an orderly at the hospital. The operation was carried out successfully. A pint of blood was drawn from Parker and transfused into the system of Thompson. Both men are doing well, and the patient's life will be prolonged many years.

## Ask Canadians to Join Russians

London.—Col. John Leckie, who recently returned from North Russia with the Canadian officers of the Murmansk expedition, has been asked by the Russian authorities to form a brigade for service there.

Assuming that diplomatic considerations will permit Col. Leckie to undertake such a task, it is understood he views the proposal with the greatest interest. Several officers who originally joined his command are willing to serve again.

## New Zealand Needs Millions

Wellington, N.Z.—The House of Representatives has authorized the government to borrow sixteen and a half million pounds sterling to be used for the settlement of ex-servicemen in New Zealand. The interest on the loan will be free from income tax.

## Postal Workers Set Own Path

Will Not Affiliate With Trades and Labor Council Nor Participate in Other Strikes

Winnipeg.—At a meeting of the Winnipeg branch of the Amalgamated Postal Workers, it was unanimously resolved not to affiliate with the Trades and Labor Council, and not to participate in any local or sympathetic strikes. The general executive was informed that the Winnipeg branch desires the clause permitting participation of a branch in local strikes deleted from the constitution.

It was decided to demand from the government representation on any legislation that would meet the Cabinet to discuss the civil service reclassification bill.

The next meeting of the Winnipeg branch will discuss the reduction in salaries caused by the new cost of living bonuses, which have reduced salaries of most employees from \$40 to \$100 a year, and the changes desired in the reclassification bill.

Frank R. Sutton was elected president, William Moore vice-president and E. J. L. Zoller general secretary.

## Want Red Cross Help

Canada Can Aid Slovakia By Sending Supplies

Ottawa.—Kotlach and Denkhin must be given support by means of munitions and Red Cross supplies if the menace of Bolshevism is to be swept from Slovakia, in the opinion of Lieut.-Col. Douglas D. Young, who went to France with the B.C.D., and who was a member of the British military mission in Siberia.

Col. Young laid the facts about Russia before the members of the House of Commons. What Canada can do to help the Slovaks, Russian people is to send Red Cross supplies, said Col. Young, who stated the men were being sent down from the line with their wounds bound up with dirty rags and there was an entire absence of medical and surgical needs in the country.

## Last Of Canadian Contingent

Only 8,000 Canadian Now to Return From Overseas

London.—Col. Thomas Gibson, Toronto, assistant medical minister, Col. A. G. Rankin, medical headquarters, and Col. Lang, Ottawa general staff, have sailed on the Caronia. The last of the Canadian contingent from Witley camp. The Corsican leaves Glasgow with 300 families. The Argonauts makes her last voyage as a hospital ship. Less than 8,000 Canadian now available for repatriation. The sailing will gradually decrease from now onwards, parties being rarely more than 400.

## Russian Evacuation Retarded

Bringing Away Many Women and Children Whose Lives Are in Danger

London.—Winston Spencer Churchill, Secretary of State for War, in a statement just issued denies that there has been any change in the British policy to evacuate North Russia.

Evacuation, however, has been retarded owing to the necessity for bringing away many Russians who are in danger of their lives, as well as women and children.

Mr. Churchill admits it will be impossible to effect a junction with Admiral Kolchak before winter. He denies that British troops are employed, or that the British Government has accepted any responsibility in operations against Petrograd.

## Sir Arthur Currie on War Gratuities

Hamilton, Ont.—General Sir Arthur Currie, the Canadian commander, who has received with open arms by this city, stated that while he sympathized with the veterans in their efforts to secure a more liberal allowance, he thought the \$2,000 gratuity asked would prove too great a burden for the country to bear. The veterans' plea to have a commission appointed to consider their claims was reasonable, he said, and should receive consideration. He was favorably of the pension regulations would have to be readjusted.

## To Further Irrigation Plans

Edmonton.—There are a number of things to be settled between the Dominion Government and us in connection with the matter, but I say go ahead with your schemes, and we will not hold you up."

This was the assurance given by Premier Stewart to a large deputation of landowners from Southern Alberta, who are interested in the promotion of irrigation in the south country, and came to the provincial ministry to ascertain their attitude in the matter.

## War Indemnity for Australia

Melbourne.—Premier Hughes has informed the members of the Australian cabinet that Germany makes the first indemnity payment by 1920. Australia's share will be ten million pounds sterling. When the indemnity was fully paid, he stated, Australia's share would be nearly sixty million pounds sterling.

## Wants No Enemy Aliens

Kingston, Jamaica.—A bill has been introduced in the provincial assembly by the government which prohibits the entry of enemy aliens from landing in Jamaica without a special permit from the local authorities. The penalty for breaking this law is fixed at \$500 or 12 months imprisonment.

## Prince Of Wales At Saskatoon

Rode Bucking Bronchos and Captured All Hearts

Saskatoon.—For the first time in the history of Saskatchewan the heir to the throne visited here, and was accorded a welcome the like of which has never before been witnessed in the district. Fully 50,000 people were in the city, farmers from the districts for miles around journeying in to pay honor to their future King.

After being publicly received by Mayor F. R. McMillan, the Prince departed a number of returned soldiers with medals for gallantry. A visit was then paid to the university, where an address was delivered by Sir Frederick Banting.

Again passing through cheering crowds, the Prince was driven out to the exhibition grounds, where he witnessed a stampee, something which His Royal Highness had never seen before. A tremendous cheer from fully 20,000 people greeted the royal party, who witnessed the performance from a specially erected royal box. Riding bucking bronchos, steer riding, lassing wild horses all kept the Prince greatly interested.

When the performance was over and the Prince was about to leave he asked permission to ride on one of the bucking bronchos, and amid the wildest cheering His Royal Highness rode down the track, surrounded by cowboys and cowgirls. He then had his photograph taken on the horse surrounded by his strange bodyguard.

Entering the automobile again to make the return journey the Prince was practically mobbed and sitting on the hood was the only waving his hat, and with a band of cowboys giving their famous calls, the Prince left the exhibition, and went to the home of the mayor and was introduced to a number of ladies who had worked for patriotic societies.

## U.S. Fleet Visits Victoria

Full Ceremonies Accorded Visitors to Capital of British Columbia

Victoria.—With shore batteries and ships gun booming their salutes in a drizzling rain, the U.S.S. New Mexico and Arkansas, with Secretary of the Navy Daniels and Admiral Hugh Rodman aboard, conveyed by a division of destroyers, dropped anchor in the harbor.

As the flagship New Mexico came to anchor and the British naval ensign climbed aboard her, the roar of a 21-gun salute rolled across the waters of the Royal Roads, to be followed by the return salute from the guns of the shore batteries in honor of the secretary, to be returned by 19 guns from the Arkansas.

Shortly afterward the official reception party came aboard the Arkansas. Heading the party, Premier John Oliver, of British Columbia; Mayor Robert Porter, of Victoria, and R. B. Mosher, U.S. consul in Victoria.

The reception committee also paid an official call on Admiral Rodman aboard the New Mexico. When this was concluded, Secretary and Mrs. Daniels, accompanied by the secretary's aide, Commander P. W. Foote, put off from the Arkansas and embarked at the landing stage in the inner harbor.

Secretary Daniels was taken on a tour of inspection of Yarrow's shipyards, the schedule also including a visit to the present dry dock at Esquimalt and the site of a new one to be started in the near future.

In the evening the secretary was the guest of honor at a dinner given by the Canadian Club, while Mrs. Daniels was entertained by Mrs. Oliver, wife of the Premier, and other ladies of the capital.

## South Africa Ratifies Peace Treaty

Cape Town, South Africa.—The House of Assembly has ratified the peace treaty.

Lieut. J. C. Smuts, Premier of the Union of South Africa, replying during the course of the debate in the House of Assembly on a motion for the ratification of the peace treaty, said he did not ask the house to approve, but merely to ratify the treaty. The Germans had been told that if there were parts of the treaty which could not be carried out they had the means of obtaining modification in the League of Nations, in which he foresaw the enemy countries would become members at no distant date.

## Held Up German Goods

Melbourne.—Although the cables state that trade between Germany and Britain has been resumed, many German goods arriving in Australia are still liable to seizure and confiscation. Commercial men are still waiting for the government to make some detailed announcement regarding the embargo on trade relations with the Germans.

## Wants No Enemy Aliens

Kingston, Jamaica.—A bill has been introduced in the provincial assembly by the government which prohibits the entry of enemy aliens from landing in Jamaica without a special permit from the local authorities. The penalty for breaking this law is fixed at \$500 or 12 months imprisonment.

## Red Cross Mission Escapes From Moscow

### Strike Leaders Released

Were Granted By Large Gathering of Sympathizers on Leaving Jail

Winnipeg.—After twenty-six days incarceration, the eight strike leaders who have been held in the provincial jail pending their trial on charges of sedition conspiracy, were granted bail. Chief Justice Matthews, who, together with Mr. Justice MacDonald and Mr. Justice Metcalfe, heard the arguments of counsel, read the decision of the court.

Bail was granted in the sum of \$4,000 each and two sureties of \$2,000 each.

The court found that it had not been proven that the accused would not appear to stand their trial, and the decision went on to state: "The court would not be justified in refusing bail on the sole ground that public safety might be endangered by permitting the accused to be at large."

The decision, as read by Chief Justice Matthews, followed "because of the great public interest involved in this prosecution, and because bail has once been refused by a brother judge, I asked my brothers, MacDonald and Metcalfe, to sit with me while hearing this application, and had the satisfaction of knowing that both concurred with me in the views here expressed."

"I therefore order that the accused be admitted to bail in the sum of \$4,000 each and two sureties of \$2,000 each."

Immediately the court had adjourned, E. C. MacMurray, together with the bondsmen, left for the provincial jail, where the formal proceedings preceding the release of the accused were completed.

William Ivens was the first of the eight leaders to be released. His appearance in the doorway of the jail was the signal for cheers from the crowd of workers, numbering over 1,500, who had gathered to greet their leaders. Someone in the crowd started singing "For he's a jolly good fellow," and the song was immediately taken up. Ivens was "chained" and carried around the square.

"Yes, I've gained eight pounds in the time I've been here," said Ivens, "and I think I'll go out and rob a bank to get back; they've treated us well."

Ald. John Queen was the next to appear. He, too, received the same greeting from the workers. The remainder of the men, Ald. A. Heaps, George Armstrong, R. E. Bray, W. E. Pritchard, R. J. Johns, and R. B. Russell came out together. They were immediately seized by their friends and "chained."

## Will Paralyze Steel Industry

Great Strike Is Declared Despite An Appeal From President Wilson to Wait

Washington.—Regardless of the request of President Wilson that they take no action pending the coming of a conference, representatives of the organized workers in the steel industry called a strike, effective September 22, to compel recognition of their unions, and of the principle of collective bargaining by the United States Steel Corporation.

The executive council of the 24 unions represented among the workers made known their decision in an announcement issued after they had requested the President, by telegram, for a "more definite statement" as to the possibility of the Nationalists' Federation, said that Germany stood today the best organized nation in the world for a commercial war. He said some people had spoken to him of trade relations with Germany. If they wanted trade relations, they must get somebody else. (Check.)

## Against Trade With Germany

Melbourne.—Premier Hughes, addressing a meeting of the Nationalists' Federation, said that Germany stood today the best organized nation in the world for a commercial war. He said some people had spoken to him of trade relations with Germany. If they wanted trade relations, they must get somebody else. (Check.)

## A Strong Navy For Australia

Sydney, N.S.W.—Admiral Sir John Jellicoe, whose mission here is the reorganization of the Australian navy, has completed his report. This provides for the establishment of an Australian naval unit, composed of eight modern battle cruisers, twelve light cruisers, twenty-four destroyers and twelve submarines and supply ships. This program is to be completed in 1923 at a cost of \$25,000,000 annually.

It is considered doubtful that the government will accept these proposals.

## Nationalization Of Mines Endorsed

United Mine Workers Also Receive on Six-Hour Day in All Coal Mines

Cleveland.—Nationalization of mines as a general principle was approved by the convention of the U.M.W. of A., with only one dissenting voice, the sole objector being shouted down when he declared nationalization an impossibility. He later explained that he only meant impossible for the present. Concrete proposals for nationalization are expected when the report of the committee on resolutions is presented with the discussion of this item.

The convention voted with the same unanimity for the six-hour day as a five-day week in all coal mines to be incorporated in the demands presented to the mine operators at the joint wage conference at Buffalo, September 25. A show of division of specific wage demands until later.

## Lloyd George In Paris

Conferences Will Have Important Bearing on Future of Council

Paris.—David Lloyd George, British Prime Minister, has arrived in Paris for conferences with M. Clemenceau, president of the council, and Frank P. Baker, assistant secretary of state and chief representative of the United States government. These conferences, it is believed, will have an important bearing on the future work of the council. Signor Tittoni, head of the Italian delegation, has postponed his departure for Rome, presumably that he may be able to confer with Mr. Lloyd George.

It is expected that M. Clemenceau and Mr. Lloyd George will discuss the settlement of differences existing between the French and British governments regarding Syria, which are considered the greatest handicap to progress by the supreme council.

## A Wise Move

Alberta Rivers Are Ordered to Be Held For Irrigation

Ottawa.—An order-in-council has been passed providing that all the unappropriated waters of the St. Mary, Milk, Belly, Old Man and Watroue rivers and their tributaries in Alberta shall be reserved for purposes of irrigation. This action is taken in view of the inadequacy of the water supply to serve all lands requiring irrigation. The order provides that such reservation shall not preclude the granting of rights to divert water from any of these streams for use for domestic, municipal or industrial purposes, nor for the irrigation of areas now in excess of 640 acres and less than a mile distant from the river.

## Sir Thomas White

Canadian Minister of Finance in his Budget Speech said:

"Our ability to meet and retire our war obligations will depend upon our power to increase our production and to economize individually so as to bring each year substantial increase in domestic wealth and savings."

"In other words the motto for the future must be 'Productive and Save.'"

Leslie Grossmith is a good piano  
player. When you have said that  
you have said everything. As a  
"comic" entertainer he is a severe  
test. His funniness is just an im-  
agination on his part, and some  
good friend should whisper this  
fact in his ear. Leslie is very fond  
of himself, and it may take some  
time to drive the fact into his head  
but as the old adage goes "the  
constant drop of water wears  
away the hardest stone."

## Titan Tractors

Ask your neighbor who owns one, just what he thinks of his 10-20 Titan Tractor. The extra amount of plowing done last fall, the new land he was able to put under cultivation during the summer, the complete satisfaction that the tractor has given him, is the best recommendation we can give you. Remember, the Titan is strictly a coal oil burning engine (cheaper fuel), that it runs 600 revolutions per minute (longer life), that its draw bar pull is 4 horse power more than its rating, (more power), it is backed by the Harvester Co., with its repair system, and their trained agents (the best possible service). And the price (\$1150). Yes that's the price, eleven hundred and fifty dollars. See us about one; we will be glad to demonstrate to you in any way.

Following is a report made by the Department of Agriculture Engineering of the Ohio State University, 1919.

Among the Tractors that went over its rating by a big margin was the Moline Universal, not only where conditions were good but where they were exceedingly bad.

Ordinarily the Moline is rated 9 H. P. but the average horse power of the two tests, gives 18.08 tests.

## Few Men Desire to Undertake

The proper administration of an Estate is no easy task. If put on the shoulders of an individual, it demands an amount of time and care that few business men can willingly spare from their own affairs; moreover should anything happen to the individual before the Estate is settled, confusion, litigation and delay, with accompanying loss, frequently result. The Trust Company specializing in the administration of property is the logical answer to the question of whom to name as your Executor. Consult us now about this important matter.

## Bentley News

It becomes more and more evident everyday that Bentley is badly in need of one thing at the present time and that is some houses to rent or sell. Half a dozen times in the past fortnight men with families were sent elsewhere to start business because there was no place to live. And there are other whole families living now in one small room because they like the location and want to stay.

We have men who will invest in vacant lots, but without a house on them it means that if the lots are sold at an increase, the other fellow who builds on the adjoining lot does all the work and doesn't get the unearned increment either. Surely there are men in our town and in the country nearby that will see the wisdom of investing some money in some cottages. It is all very well to say that new comers should buy or build for themselves. They may not have the necessary funds, and still be good settlers, or they may not be sure that the opening is the one they desire. The best way to help people settle in our midst is to make it possible for them to get to work quickly and comfortably.

The next regular meeting of the U.F.A. will be held on Saturday evening next, Sept. 20th. We should have had a notice in the news last week to this effect but overlooked it, so we hope you will all take special notice this week. The sections will meet separately for the business sessions and then a program and social hour will be held together. Be sure and be on hand for this meeting.

The Secy of the Bentley Red Cross has received a letter from the Provincial secretary giving notice of a Red Cross Convention in Calgary on Sept. 30th and Oct. 1st to consider the future work of the society. An urgent plea is made that delegates be appointed from

every Branch, that the convention may be representative of the province. Bentley Branch is entitled to two delegates. In this connection it might be well to remind the members of the Bentley Branch that all who became members before the Annual meeting in October last year should pay their membership fee of \$2.00 at once as it is now due.

It has been thought wise to take advantage of the U.F.A. meeting on Saturday night, and use a few minutes of the social hour to appoint the delegates to the convention.

Word has been received of the death of Mr. John Bowyer, father of Mrs. C. A. Putland, at his home 3 Camden Hill-road, Upper Norwood, England on August 15th in his 82nd year. Deceased was a building contractor by trade and many splendid edifices in the locality testify to his superior workmanship.

He leaves a widow and several children to mourn the loss of an affectionate father.

Miss Marnie Nelson has secured a situation in the office of the Mount Royal College, Calgary.

Mr. and Mrs. Oesch of Vancouver B. C. are visiting with Mr. and Mrs. R. R. Hutchison.

Miss Marie Thompson has left to pursue her studies at the Collegiate, Calgary.

On Thursday evening, Sept. 11th, the people of Rainy Creek community tendered a reception to Pte. Paul Steele who has just recently returned from overseas. Paul is about the only one of the boys who really knows what war means and the fact that he is still under the direction of the Hospital authorities and travelling on crutches brings it home to all who meet him. He has suffered a very great deal and for many months his life was despaired of, but a turn for the better has taken place and it is the hope of all his friends that recovery may be complete.

Paul came to this community as a small boy and has grown up in it. He enlisted early in the war, almost a boy and it is true of him doubtless, as has been reported of the Prince of Wales, that "He found his manhood in the trenches."

Over 125 persons were present at the reception in the church on Thursday evening, and the tables were taxed to the utmost to provide good things in plenty to eat. Mr. Archie Young, the oldest man present and an old friend of Paul gave the address of welcome which was filled with reminiscences and good wishes.

The pastor, who presented the guest of the evening with a beautiful gold watch and chain as a small token of the love and respect from the people of the community. There was also coupled with this a cheque of \$50.00 from Mr. J. B. Carriv. Paul's mother replied on his behalf, expressing not only thanks for the expressions of the evening, but for the constant interest and sympathy throughout the years of waiting and anxiety.

Mrs. Irvine Stanley, who has been visiting relatives and friends here left on Thursday for her home at Swan Lake, Alberta. Mrs. W. McPherson, and son Douglas returned home last week from an extended visit in the States. Mrs. Peabody, who has been visiting her daughter, Mrs. J. C. Carriv during the summer, left for home on Thursday. Mr. C. Lawson and Mr. Coggin are taking down Mrs. Bullock's house at the farm and moving it into town to be rebuilt as a residence for Mr. Lawson. The marriage of Earl James Faulkner and Mary Elvora Best, Forsyth of Nugent, Alberta, took place at the Bentley Parsonage on Monday afternoon, September 15th, 1919.

On Friday evening a meeting was held in the church for the purpose of considering the re-seating and decorating of the church. A careful estimate of the cost of seating the church with pews revealed an amount of \$400. A committee consisting of Messrs. S. M. Bolton, J. H. Lormier and H. Thorp was appointed to see if it is possible to secure the necessary amount.

A member of the curling club was held on Tuesday night when it was decided to enlarge the present building by including another rink and to complete the building.

Threshing will be in full swing by the last of the week. Haarsstad Bros. started on Friday and Geo. Garries started in with an outfit at Mr. J. F. Miller's on Monday. Messrs. Thorp Bros. are installing a curb gasoline pump in front of the garage this week.

Mr. Ludwig Larson and family are leaving for Wisconsin this week where they will make their home in future. Mr. Kory and his brother-in-law, Mr. J. H. Brown, have purchased Mr. Larson's farm where Mr. Ras will live.

Mr. and Mrs. George Brown of Edinburgh Scotland, arrived on Saturday to take up their residence here. Mr. Brown will take the place of Mr. W. N. Brown in the Merchants Bank, who goes to Calgary.

Mrs. Lee Shaver is seriously ill in one of the Calgary Hospitals.

## Will Banquet Our Veterans

On Thursday evening last at the close of the meeting of the Red Cross Society, a number of townspeople met together to consider in what way Lacombe can honor the men who have returned from service overseas. A committee of gentlemen was formed to arrange for a banquet to be given on the 20th inst. to all the returned men. On the same evening a committee of ladies will give a reception in the Veterans' theatre to the wives, parents and friends, at which the soldiers will be present at the close of the banquet. A pleasant time will be passed with music and social amusements. The committee are anxious that this should be a whole-hearted and spontaneous effort on the part of our citizens. Invitations are being sent out, and tickets will be on sale to friends of the soldiers who receive them.

### Satinwood

The death occurred on Sunday Aug. 31st of Mr. Jerry W. Evans one of the most respected citizens of Satinwood community. His death was the result of very severe injuries received while working in the hayfield on the previous Thursday.

Mr. Evans was born in Pennsylvania, Sept. 1st 1846. When quite a young man he moved to Iowa where he resided until he came to Alberta five years ago.

He leaves to mourn his loss, a wife, three daughters, Miss Maud Evans at home, Mrs. E. W. Waldron, Satinwood; Mrs. Ralston, of Iowa, and one son, Melvin at home besides a host of friends and relatives.

To the very last Mr. Evans was an active and devoted worker in the Church and Sunday School, where his presence will be greatly missed by his co-workers and pastor.

A large number of friends attended the funeral service at the home and many went to Lacombe where he was laid to rest.

"Blessed are they who die in the Lord."

Gwyn ei byd y rhai sy'n meddwl yn yr Arglwydd, gwyn ei byd. Maeu yn gorffwys yn y parhau ladd.

Fuont yn ei ddigswyl ei d, Deng mil gwell na chydai ni. The floral tributes were numerous and beautiful. The funeral service held at the home and the graveside were conducted by the Rev. J. Lloyd Hughes of Blackfalds.

### Card of Thanks

## Children's Glasses

If your child complains of headaches or painful vision, now is the time to have its eyes examined. School work makes an extra strain on the weakened eyes.

"We make a specialty of fitting Children's glasses and use the utmost care in each case."

In the critical period of school life, many children suffer from eye defects, which a little care and attention would easily remove.

### EDUCATION PAYS ON THE FARM

Statistics show that farmers who have had an education make larger incomes than those who have received but little schooling.

An education is more necessary now than it was thirty years ago. Farming has changed greatly in this period. Then, farmers cut their grain with a cradle, bound it by hand and thrashed it with a flail. They ground their grain between stones and lifted the water out of the well in buckets. They treated their "hollow horn" cattle for "hollow horn" and "wolf in the tail" and planted their grain in the moon. The horse and the ox were their only means of transportation. The farm houses had no conveniences; house were lit with candles; the kitchen equipment consisted largely of hard work.

Now, the farmers have larger farms. They cut and bind their grain with binders and thresh with engine-driven separators. They frequently plow with tractors and many own automobiles. They select varieties of grain that are known to give larger returns than the ordinary varieties. They treat their seed to control diseases and plant at rates per acre, which experiments have shown to give maximum yields. They select improved types of breeding animals and feed their stock in accordance with knowledge derived from the chemistry of foods. The farm houses have been greatly improved.

To keep up with the times and to make the most money from the farm, one should know how to farm in accordance with the most improved methods. You can learn these methods at the Olds School of Agriculture. Education pays; you can learn in a few months what it would take years of experience to give you. Talk with any ex-student regarding the value of the course.

Classes in Agriculture and Domestic Science commence on October 29th. For particulars write:

F. S. Grisdale, Principal, School of Agriculture, Olds, Alberta.
